The Leberfinger House, located at 10105 Hummingbird St., Ellerslie, Allegany County, MD is not located in an historic district nor is it considered eligible for individual listing on the National Register of Historic Places.

The Leberfinger House is a two story house built 1890-1930. The frame structure sits upon a stone foundation and is covered with a low gable roof. An interior chimney protrudes above the roof line. The windows are two over two sash in the second story and 1 over 1 sash on the first floor. One alteration is the removal of two windows on the southeast portion of the front facade and the reuse of one window frame to provide a "picture window." The gable-roof porch is in the center of the south facade and appears to be a later addition.

The dwelling is typical of the domestic architecture of the period and lacks the architectural distinctiveness to qualify for listing on the National Register of Historic Places under Criterion C. The property is not known to have any associations with persons or events significant to our past and is thus not eligible under Criteria A or B.
